Central Bargaining Survey

Members of OCHU are asked to participate in a demand set survey.

The OCHU Central Collective Agreement expires on September 28, 2021.

The Central bargaining committee is asking that all OCHU members complete the survey as the first step in the demand set process. This is an opportunity to let your bargaining committee know your priorities and the improvements you would like to see in the next collective agreement.

The survey can be found on the OCHU website until September 7th, 2020.

OCHU Regional Rally

Ontario health care workers announce 22 political protests against the PC government's removal of their basic workplace rights.

The protests are in response to the passing of Bill 195, the Reopening Ontario Act (A Flexible Response to COVID-19), which suspends many fundamental workplace rights, although the Bill declares the pandemic emergency over.

We encourage members who aren't working to participate.
